b2b-aero is the only provider of online tools and services for the aviation industry, exclusively focused on the Maintenance, Repair and Overhaul market. Since its launch in May of 2000, b2b-aero.com has grown to be the industry’s largest repair capability database and benchmark for repair order management, monitoring, tracking and status reporting. Nowadays, **b2b-aero** offers a low cost electronic interaction and an efficient connectivity between MRO customers and suppliers, regardless of their existing IT infrastructure or IT system capabilities, being the service provider that can handle current and future supply chain challenges between EDI/EDI and EDI/non EDI trading partners.

2021 QUICK FACTS & FIGURES

- 2,975** News
- 2,705** Registrations
- 17,930** Profile searches
- 16,006** Profile views
- 16,830** Facility searches
- 46,555** Professionals

MyAero is the only professional aviation network, homepage for b2b-aero.com logged-in users. Access the largest directory in the industry, join a community of more than 40,000 professionals, find new suppliers or customers the easiest way, stay up-to-date thanks to trustworthy AviTrader news feed, benefit from our powerful management tools and sell or buy aviation parts on our marketplace, all of it available on **MyAero**.

MRO-Tracker

REPAIR ORDER MANAGEMENT SOLUTION

2021 QUICK FACTS & FIGURES

2,823	MRO Suppliers
4,234	MRO Customers
37,638	Professional users
23,093	Data connections
1,600,000	Reports sent
30,000,000	Transactions processed

MRO-Tracker is the most trusted aviation industry repair order management software, available both online or fully integrated thanks to the EDI technology. With **MRO-Tracker** you can optimize your productivity, time and cost-efficiency by tracking the repair status of your components and parts as they go through the repair process at your supplier facility.

MRO suppliers, mainly repair centers, can either use our software to provide automatically delivered customized repair status reports to their MRO customers such as airlines, third party maintenance, asset management and supply chain companies, or provide them real-time data through EDI technology (computer-to-computer), eliminating manual and time-consuming efforts associated with the repair order management, tracking and reporting process run by customer service representatives.

Inventory

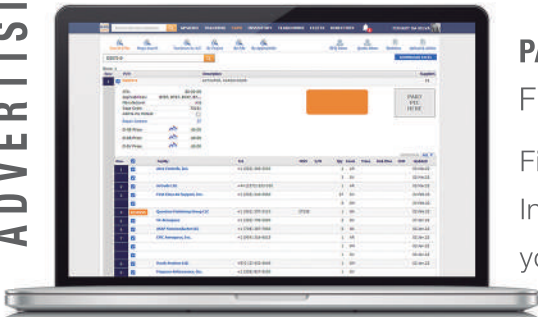

ONLINE SPARE PARTS MARKETPLACE

2021 FACTS & FIGURES

2021 FACTS & FIGURES	486	Suppliers
	141,819	RFQs
	57,248	Quotes
	15,073,214	P/Ns
	127,614,865,724	Parts

Launched in summer 2014, **Inventory** is an online spare parts marketplace where professionals connect to sell and buy aviation related materials. We work hard to grow our database and offer our customers a safe place to source/sell their parts, increase their brand awareness and find new trading partners.

ADVERTISING SPACES

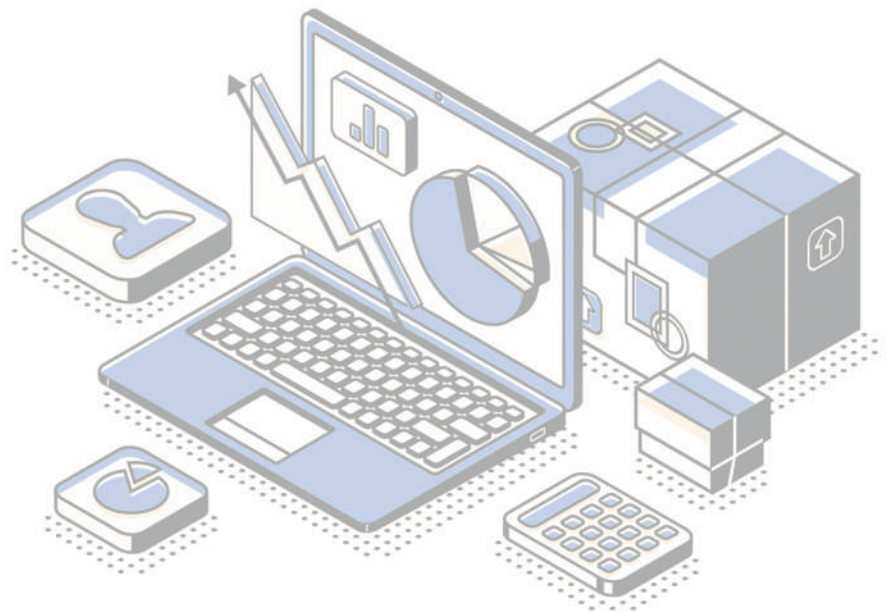

PART-BY-PART ADVERTISING

Fixed banner/logo 100x80 px

0.50 USD/part/year

Fixed targeted advertising space for a specific part number on Inventory search results webpages. Display your company logo next to your parts for sale and receive qualified business leads.

Capabilities

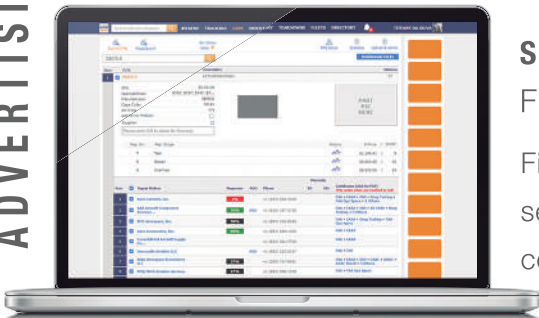

ONLINE REPAIR MARKETPLACE

2021 FACTS & FIGURES

1,203	Suppliers
221,899	RFQs
121,231	Quotes
5,637,120	Capabilities

Launched in July 2016, **Capabilities** is our capability database offering accurate repair data such as part number and description, ATA Chapter, aircraft applicability, suppliers' overhaul/repair/test prices and TAT. The best tool to source or promote your capabilities.

ADVERTISING SPACES

SIDEBAR BANNER

Fixed banner/logo 120x73 px

2,999 USD/year

PART-BY-PART ADVERTISING

Fixed banner/logo 100x80 px

0.50 USD/part/year

Fixed targeted advertising space for a specific part number on Capabilities search results webpages. Display your company logo next to your parts for sale and receive qualified business leads.

Fleets

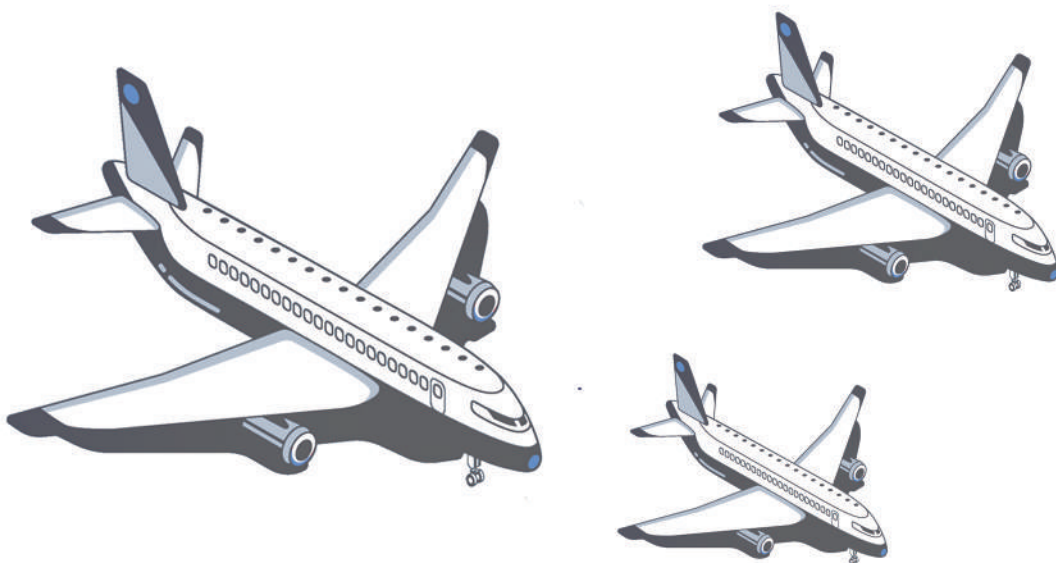

AVIATION MARKET INTELLIGENCE

2021 FACTS & FIGURES

21	OEMs
2,826	Operators
44,140	Aircraft
59,735	Engines

Fleets is an extensive fleet database for a better aviation market intelligence: search for operators, aircraft and engines, identify your best prospects and contact them through MyAero. Sourcing new partners, suppliers or customers has never been as simple as a click away.

Cherry on the cake, **Fleets** offers a great feature allowing data cross-checking in just a few clicks: **Fleet Match**. The match function allows you to search for a specific aircraft or engine, using broad match and narrow filters from original equipment manufacturer to the current status of the item. Even better, you can also match your own inventory or capability listing with our fleets database: the applicabilities of your part numbers help you identify the airlines and aircraft, a great tool for market analysis and prospection.

Directory

PROFESSIONAL AVIATION DATABASE

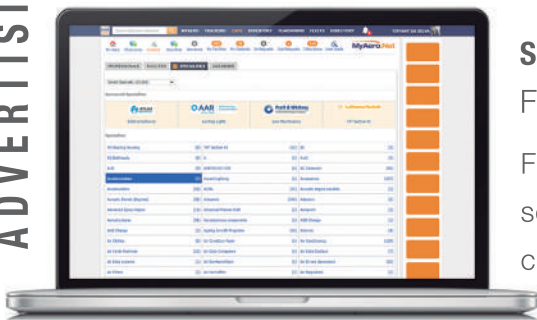

& FIGURES

2021 FACTS

- 46,555** Professionals
- 36,525** Facilities
- 25,542** Specialties
- 1,610** AOG Desks

Directory offers a complete overview of the aviation industry in few clicks. All the information you need is gathered in one single place to help you optimize your time: identify and contact your best prospects, source new partners, suppliers and customers, check their specialities, etc.
